

Norris Park

Norris Park, located on Apex Peakway, provides businesses with quick access to US Highway 1 and NC 540. The Park was designed to accommodate a wide range of business users by featuring both office and flex spaces. An excellent mix of restaurants, retail and shopping is only minutes away on the Peakway, on Highway 55 and in historic downtown Apex.

Room to Grow

Norris Park is master planned for seven office/flex buildings providing a total of 198,000 square feet. Currently, three of the buildings (approximately 76,000 square feet) have been built using tilt-up concrete providing excellent climate control. The availability of additional space within the park will allow new and growing companies to expand their operations without having to relocate every few years. The park offers bays from 2,400+ square feet for lease.

Flexible Uses

Easy access, well maintained landscaping, attractive buildings and front door parking make Norris Park an ideal location for office users looking for nice amenities at rates far below Class A market rate. While high ceilings, dock-high doors, rear roll-up doors and truck courts that can accommodate 53' trailers also makes Norris Park an ideal location for assembly, storage, recreation and warehouse users.

For more information about locating your business in Apex, featured properties, or other processes of the Town, please contact Joanna Helms, Economic Development Director at 919-372-7461 or joanna.helms@apexnc.org.
