

# Apex Peakway SW Connector

## Public Open House

STIP Project No. U-5928  
December 2018

**Welcome** to the Open House for the Apex Peakway Southwest Connector project! This is an opportunity to:

- Review maps showing the project final design
- See visualizations showing what the completed project may look like
- Ask questions of the project team
- Provide input using a comment form

## Project Background

The Apex Peakway is planned to serve as a loop around the Town of Apex. The Southwest connector project would complete a missing gap in the loop at South Salem Street by constructing a bridge over South Salem Street and the CSX railroad tracks. Turning movements between the Apex Peakway and South Salem Street would be made using a quadrant loop road.

The project will require the permanent closure of the existing at-grade railroad crossing along Tingen Road, east of the project location. The project would require the temporary closure of the Apex Peakway between Towhee Drive and South Salem Street for the duration of construction.

### Project Contacts

**Mr. Russell Dalton, PE**  
Senior Engineer  
Public Works and Transportation  
Town of Apex  
PO Box 250  
Apex, NC 27502  
(919) 249-3358
