Planning Staff Signature

Approval Date

According to [Section 8.7](#) of the UDO, a Master Signage Plan is required when more than one use or business is located on a lot. A Master Signage Plan should provide for consistency among signs on the premises with regard to location of a freestanding sign(s), location of each sign on the buildings, size, color scheme, lettering or graphic style and lighting. The master signage plan must be approved by the Planning Department prior to the issuance of any sign permits on the lot(s).

1. Staff member reviews applications submitted to the Planning Department for completeness.
2. If application is complete, Planning Staff will review Master Signage Plan application and send comments to applicant.
3. The applicant must address all of the comments and submit revised plan.
4. Planning Staff reviews the revised plan for compliance with the Unified Development Ordinance (UDO). If it is in compliance, the plan will be approved and a permit issued.
5. If it is not in compliance with the UDO, Planning Staff will provide additional comments and a revised Master Signage Plan must be submitted.
