Advance Apex: The 2045 Transportation Plan (Advance Apex) identifies transportation needs and recommendations for motorists, bicyclists, pedestrians, transit, and freight. The plan establishes a vision for the transportation network in Apex and identifies projects, policies, and actions that will allow for incremental progress toward that vision. The maps depicting the Town's long range transportation and land use plans are "living" documents, regularly updated based on new information and development. Any updates to the maps are presented during a public hearing for consideration by both the Planning Board and Town Council. Advance Apex documents are available for viewing and download at <http://www.apexnc.org/1193>.
